<http://weDare.tech>

Anna is an aspiring front-end developer striving to code for a cause and design interactive web applications. With experience in HTML, CSS, JavaScript, and background in business development, digital fundraising, and content management she transforms her life-long hobby into a profession. Master of Social Science, Anna applies her expertise in social marketing, international communications, and project management to connect end-users and cutting-edge technology. She's also an avid bike rider.

TECHNICAL SKILLS

HTML5

JavaScript (ES5, ES6+)

Version Control: **GitHub**

Frameworks: **Vue.js, Bootstrap** (v.3, 4+)

Library: **jQuery** (v.3+)

JS Compiler: **Babel**

JS Package Manager: **npm**

JS Module Bundler: **Webpack**

SELECTED WEB APPLICATIONS

Currency Calculator – [Explore](#) | [Repository](#)

The app converts currency to/from USD, RUB, CAD, and EUR. Converter sends AJAX request to live JSON API to get current market exchange rates.

Login Page – [Explore](#) | [Repository](#)

Stylish template with options to switch screen mode between light and dark modes and store user data and presets locally. App's modules bundled with Webpack for a smoother launch.

Great RGB Color Game – [Play](#) | [Repository](#)

Sharpen your eyes finding the color for RGB code (values for Red, Green, and Blue span 0 and 255). Three game modes, sticky footer, responsive layout, and the best of native JS.

Wild Cats Cubs Gallery Page – [Explore](#) | [Repository](#)

Library of effective templates where the gallery presented with photo slider plugin Galleria, responsive layout, customized tabs and wraparound status bar fueled by jQuery.

FAVORITE TOOLS FOR WORK AND INSPIRATION
